

**Purpose:** This tool is intended to help hospitals understand the key areas of the Medicare cost report (MCR) that HRSA reviews when determining hospital eligibility for the 340B Program.

**Background:** HRSA uses a hospital's Medicare cost report to validate parent hospital (covered entity) and offsite outpatient facility (child site) 340B Program eligibility during 340B Program registration, reinstatements, recertification, and program audits. This tool outlines areas of the MCR that are used to verify hospital:

- CMS provider information
- Eligibility as a 340B covered entity
- Off-site outpatient facility eligibility for child site registration
- Entity-owned pharmacy eligibility as a shipping address

#### **Medicare Cost Report Worksheets**

Worksheet	Information Used by HRSA	Statutory Requirement or HRSA Guidance
Worksheet S, Parts I, II, & III	Cost report filing information (provider number, dates, signature):  Provider CMS Certification Number (CCN) (formerly known as the Medicare Provider Number)  Period From To (cost reporting period)  Part I – Cost Report Status Date, Time (cost report filing date and time)  Part II – Certification (hospital official certification statement and encrypted signature along with encrypted signature stamp – wet signature not acceptable)	Section 340B, subsection (a)(4) of the Public Health Service Act¹ describes the requirements to meet the definition of "covered entity," including CMS hospital classifications and information obtained from the most recent cost reporting period.
Worksheet S-2, Part I	Parent hospital information (address, control type, and CMS designation):  • Lines 1 and 2 – Hospital and Hospital Health Care Complex Address • Line 21 – Type of Control • Line 35 – Indicates CMS designation as a Sole Community Hospital (SCH) • Line 105 – Indicates CMS designation as a Critical Access Hospital (CAH)	Section 340B, subsections (a)(4)(L)(i), (M), (N), and (O) of the Public Health Service Act describes the 340B eligibility requirement for a hospital to be:  Owned or operated by a unit of State or local government, A public or private non-profit corporation which is formally granted governmental powers by a unit of State or local government, OR  A private non-profit hospital which has a contract with a State or local government to provide health care services to low-income individuals who are not entitled to benefits under Medicare or Medicaid

<sup>1</sup> Section 340B of the Public Health Service Act, https://www.hrsa.gov/sites/default/files/hrsa/rural-health/phs-act-section-340b.pdf, accessed on 7/14/2022.

Worksheet	Information Used by HRSA	Statutory Requirement or HRSA Guidance
	<ul> <li>Line 116 – Indicates CMS designation as a Rural Referral Center (RRC)</li> </ul>	Additional supporting documentation may be required to confirm the hospital meets one of the three eligibility criteria above.
		Examples of additional supporting documentation confirming the above requirements are outlined in HRSA's 340B Program Hospital Registration Instructions <sup>2</sup> .
Worksheet E, Part A	Hospital's disproportionate share hospital percentage (DSH%)  • Line 33 – Allowable disproportionate share percentage	Section 340B, subsections (a)(4)(L)(ii), (M), and (O) of the Public Health Service Act describe the minimum disproportionate share adjustment percentage (%) required for each hospital covered entity type:  • DSH, CAN, and PED: DSH% > 11.75%  • SCH and RRC: DSH% ≥ 8%  The above requirements are confirmed in HRSA's 340B Program Hospital Registration Instructions. In addition, children's hospitals (PED) that file a Medicare cost report may use the data within Worksheet S-3 to calculate their DSH% (Worksheet S-3, Part I, lines 2 and 14 may be used to calculate the Disproportionate Patient Percentage [DPP]).
Worksheet A	Expenses for hospital cost centers:	HRSA's 1994 Outpatient Hospital Facilities Guidelines³ state that off-site outpatient facilities must be listed as reimbursable on the hospital's most recently filed Medicare cost report and have associated outpatient expenses and charges in order to be eligible to register for the 340B Program as a child site.
Worksheet C	Charges for hospital cost centers:  • Column 7 – Charges / Outpatient	HRSA's 340B Program Hospital Registration Instructions state that "if the costs and charges from more than one clinic, service or facility are rolled up to a single cost center, you will need the specific costs and charges from the working trial balance" for registration. See Appendix A for an example of a trial balance, and Appendix B for an example of how to register multiple departments that role up to a single line on the cost report as separate child sites.

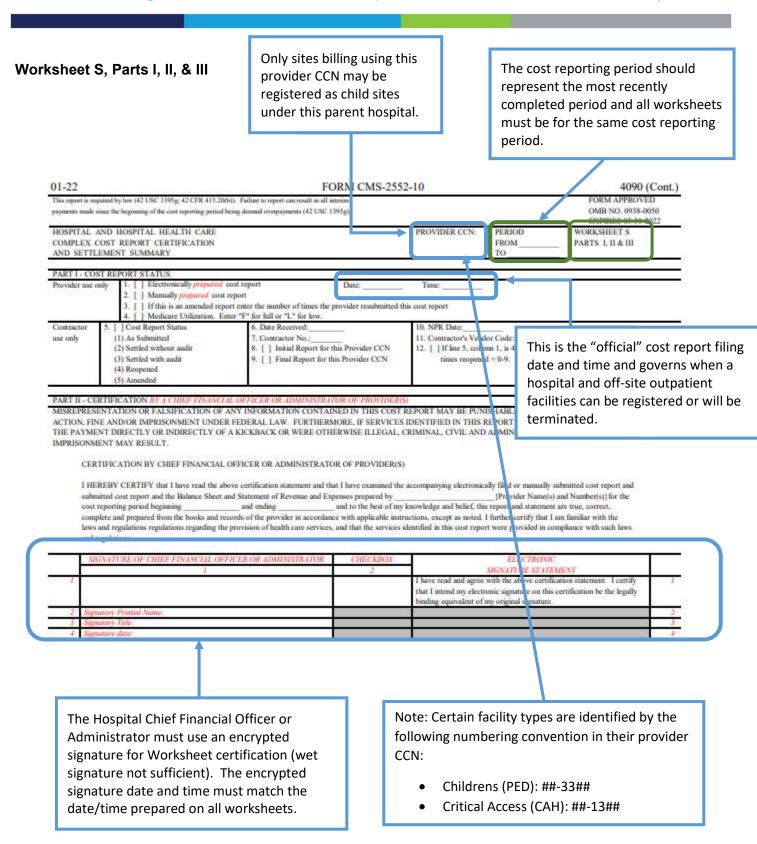

The images within Appendix A below provide additional details about what HRSA looks for when reviewing a hospital's Medicare cost report. Appendix B provides an example of how to use the hospital's Medicare cost report to identify the necessary values to input into 340B OPAIS during a child site registration.

Appendix B: Registration Example – Multiple Departments Rolling up to a Single Line on the MCR

A covered entity recently opened a Cardiology, Neurology, and Gastroenterology clinic within the four walls of the hospital. These clinics newly appear on the most recently filed MCR under line 90.00 (departments HC0326, HC0327, and HC0328 in the example trial balance above). The covered entity would like to register these clinics on 340B OPAIS during the next quarterly 340B registration period.

**Example:** Cardiology Clinic – Hospital registration

**Step 1:** Identify the **Net Expenses for Allocation** for line 90.00 from Worksheet A, Column 7, and input into the "Net Expenses (Worksheet A)" field within the "Cost Center Information" box on 340B OPAIS during registration.

**Step 3a:** Identify the **Total Expenses** for the specific department from the Expense trial balance and input into the "Specific "Service/Clinic Cost (Trial Balance)" field within the "Cost Center Information" box on 340B OPAIS during registration.

**Step 3b:** Identify the **Outpatient Revenue** for the specific department from the Revenue trial balance and input into the "Specific Service/Clinic Outpatient Revenue (Trial Balance)" field within the "Cost Center Information" box on 340B OPAIS during registration.

Repeat steps 1-3 to register the Neurology and Gastroenterology clinics, using same information from Worksheet A, Column 7, line 90.00; Worksheet C, Column 7, line 90.00; and the **department-specific** Total Expenses and Outpatient Revenue from the trial balances. Each department that is registered should have unique values entered into the "Specific "Service/Clinic Cost (Trial Balance)" and "Specific Service/Clinic Outpatient Revenue (Trial Balance)" fields in 340B OPAIS during registration.

**Example:** Neurology Clinic – Hospital
